

SUSTAINABILITY POLICY

FUENTEPARK is fully committed in the effort of making social development, involvement with the local community and environmental protection compatible, in order to provide future generations with a prosperous and sustainable environment.

To this end, this policy establishes the following measures and practices:

1. Waste Management:

- We encourage waste reduction by promoting the use of reusable products and minimising disposable packaging.
- Recycling points will be set up in communal areas to encourage the proper separation of recyclable waste.

2. Energy Efficiency:

- We implement practices to optimise energy use, such as the use of LED lighting and the installation of energy saving devices.

Recommendations to customers on efficient energy use, to turn off lights and devices when not in use.

3. Water management:

- We will implement efficient irrigation systems and make conscious use of water resources in the maintenance of green areas.

4. Environmental Education:

- We will provide information to raise guests' awareness of the importance of sustainable practices and how they can contribute to the conservation of the environment, as well as the importance of biodiversity.
- Train, communicate and educate employees on Good Environmental Practices as defined by FUENTEPARK.
- To develop and promote a true culture of sustainability, raising awareness among guests and collaborators, with the aim of creating a more responsible and supportive environment.
- To promote cultural values, heritage, local customs and traditions.

5. Sustainable Mobility:

- We will encourage the use of public transport, bicycles and electric vehicles, providing bicycle parking facilities.

6. Continuous Evaluation:

- We will establish a monitoring system to regularly assess the impact of our environmental practices and make continuous improvements.
- We will seek feedback from residents to identify areas of opportunity and adapt our policies as necessary.
